

About the Book

This book, T3 – Trump, Tariffs and Trade War, is not merely a chronicle of Trump's policies; it is an exploration of the multi-layered consequences of a global experiment in protectionism. Tariffs, once seen as technical adjustments, became central to questions of sovereignty, nationalism, technological rivalry, and even cultural identity. The "trade war" of the Trump era was not confined to economics—it touched law, politics, finance, ethics, media, and the environment. Understanding its impact requires a lens that is as interdisciplinary as the conflict itself. The phrase T3 captures the triangular nature of the phenomenon:

- Trump as the political figure whose rhetoric and policies set the stage.
- Tariffs as the central economic weapon employed.
- Trade War as the global consequence, affecting nations, institutions, and people alike.

About the Editor

Dr. Davendra Kumar Sharma is an eminent academician and seasoned educator, presently serving as Associate Professor and Dean of Commerce at S. S. Jain Subodh P.G. (Autonomous) College, Jaipur. With vast experience in teaching and research, he has contributed immensely to the fields of commerce, finance, and business statistics. Holding a Ph.D. in Commerce, an MBA in Finance, and an M.Com in ABST from the University of Rajasthan, Dr. Sharma has also acquired several national certifications, including the NCFM Certification in Commercial Banking in India and a Diploma in Small Industry Management. His academic vision has been further sharpened through international training programs in soft skills and personal development. Dr. Sharma has authored and co-authored several textbooks and reference books that serve as valuable resources in higher education. He has also published numerous research papers in reputed journals and presented his work at many national and international conferences. As a Ph.D. supervisor, he has guided research scholars in finance and consumer behavior, reflecting his commitment to nurturing future researchers. His research involvement extends to UGC-funded projects, including a significant study on inventory management at the Diesel Locomotive Works, Varanasi. He has also published patents on HR challenges in the IT industry and vendor selection strategies, showcasing his diverse research interests. Beyond academics, Dr. Sharma writes regularly as a columnist in leading Hindi newspapers and magazines on topics such as GST, credit card usage, economic reforms, and the impact of COVID-19 on the economy. Honored with prestigious recognitions like the Outstanding Academician Award, Shiksha Shiromani Award, and Research Excellence Award, he continues to play an active role in academic and professional associations such as the Indian Accounting Association and the Indian Commerce Association.
