

### About the Editor

**Dr. P. S. Chouhan** is a distinguished academician, educationist, researcher, and administrator with extensive experience in teaching, research, and institutional leadership. He is currently serving as the Principal of Shree Tagore College, Kuchamancity, where he has played a transformative role in enhancing academic standards, nurturing a vibrant research culture, and promoting the holistic development of students. Throughout his academic and professional journey, Dr. Chouhan has been deeply committed to exploring and advancing the fields of Animal Physiology, Biochemistry, Reproductive Physiology, and Environmental Biology. His dedication to scientific inquiry and academic excellence has consistently reflected in his teaching, research initiatives, and mentorship. In recognition of his outstanding contributions to academic leadership, Dr. Chouhan has been honored with the prestigious "Best Principal Award." This accolade reflects his dedication to institutional development, quality education, and academic excellence. His visionary leadership and unwavering dedication continue to inspire students, scholars, and fellow educators. With a strong foundation in research and practical application, Dr. Chouhan has significantly contributed to his field through scholarly publications, academic guidance, and innovative teaching practices. As a devoted teacher and mentor, he has inspired numerous students and budding scientists to pursue careers in biological sciences, thereby making a meaningful impact on the academic community. Beyond the classroom and administrative responsibilities, Dr. Chouhan is an avid writer and a passionate advocate of scientific awareness. He continually strives to deepen his knowledge and share it with society. This book represents the culmination of years of dedicated study, research, and passion, aimed at making the complex world of biology accessible and engaging for a wider audience. In his leisure time, Dr. Chouhan enjoys reading and writing. Through this work, he hopes to inspire the next generation of scientists and contribute meaningfully to the growing body of knowledge in the field of Animal Physiology.
